#### 1 Who We Are

-  Oman-based innovation and manufacturing platform
-  Focused on natural ingredients, functional foods and value-added processing
-  Combining R&D, extraction, purification, drying and product development
-  Supporting B2B collaboration, co-development and private label opportunities

#### 2 Core Capabilities

-  Supercritical CO<sub>2</sub> extraction
-  Subcritical extraction
-  Freeze-drying and vacuum drying
-  Ingredient purification and concentration
-  Functional formulation and application development
-  Quality control and technical evaluation
-  Packaging and product concept development

#### 3 What We Can Build

-  Botanical extracts and effective fractions
-  Functional beverages and twist-cap concepts
-  Camel milk powders and dairy innovations
-  Coffee, chocolate and confectionery applications
-  Nut, seed, oil and tahini concepts
-  Pet nutrition and novel-protein solutions

#### 4 From Farm to Finished Product

INTEGRATED CAPABILITIES  
FOR A STRONGER, MORE NATURAL TOMORROW

### FROM FARM TO FINISHED PRODUCT

Science • Technology • Manufacturing • Commercialization

#### 5 Collaboration Model

Sultanate of Oman

# PROFESSIONAL NATURE LLC

Advanced Natural Ingredients, Functional Foods  
& Industrial Processing Solutions

NATURAL RESOURCES  
REAL OPPORTUNITIES  
A HEALTHIER TOMORROW

INSPIRED BY  
OMAN'S UNIQUE NATURE  
BUILT FOR A HEALTHIER  
WORLD

## 1 Who We Are

Oman-based innovation  
and industrial platform

Focused on natural ingredients,  
functional foods and value-added  
processing

Combining R&D, extraction,  
purification, drying and product  
development

Supporting B2B collaboration,  
co-development and private label  
opportunities

## 2 Core Capabilities

Supercritical CO<sub>2</sub> extraction

Subcritical extraction

Freeze-drying and vacuum drying

Ingredient purification and  
concentration

Functional formulation and  
application development

Quality control and technical  
evaluation

Packaging and product concept  
development

## 3 What We Can Build

Botanical extracts  
and active fractions

Functional beverages  
and twist-cap concepts

Camel milk powders  
and dairy innovations

Coffee, chocolate and  
confectionery applications

Nut, seed, oil and  
tahini concepts

Pet nutrition and  
novel-protein solutions

## 4 From Farm to Finished Product

INTEGRATED CAPABILITIES  
FOR A STRONGER, MORE NATURAL TOMORROW

Raw Material  
Sourcing

Extraction /  
Processing

Purification /  
Drying

Formulation

Packaging

B2B  
Commercialization

## 5 Collaboration Model

Ingredient supply

Co-development projects

Application R&D for manufacturers

White label and branded product concepts

Industrial scale-up support

Professional Nature helps companies transform natural raw materials  
into differentiated, high-value products.

# BAKERY, BISCUITS, CAKES & BREAD

Functional ingredients and natural innovation  
for modern bakery manufacturers

NATURAL RESOURCES  
REAL OPPORTUNITIES  
A HEALTHIER TOMORROW

## 1 How We Add Value

Natural flavor and aromatic extracts

Functional ingredient enrichment concepts

Premium botanical positioning for product differentiation

Clean-label innovation opportunities

## 2 Solutions for Bakery Companies

Saffron, cardamom, vanilla and coffee applications

Natural inclusions for biscuits, cakes and filled products

Functional syrups, powders and aromatic concentrates

Texture and sensory concept support

## 3 R&D + Industrial Support

Ingredient selection and formulation trials

Extraction and concentration know-how

Freeze-dried and powdered ingredient options

Packaging and product concept development

## 4 Potential Product Ideas

INNOVATIVE BAKERY SOLUTIONS  
FROM NATURE'S FINEST INGREDIENTS

Premium saffron biscuits

Functional bakery snacks

Coffee-cardamom cake concepts

Botanical cream or filling concepts

Better-for-you bakery ranges

Partner with Professional Nature to create differentiated bakery products with premium natural value.

NATURE | INNOVATION | INDUSTRY | PEOPLE | A HEALTHIER TOMORROW

# CHOCOLATE, CONFECTIONERY & SWEET SNACKS

INSPIRED BY  
NATURE'S RICHNESS  
FOR A MORE DELIGHTFUL  
WORLD

Natural actives, premium flavor concepts  
and differentiated indulgence

NATURAL INGREDIENTS  
PREMIUM FLAVOR EXPERIENCES  
A SWEETER TOMORROW

## 1 What We Bring

Natural extracts for premium product stories

Functional confectionery innovation

High-value flavor pairing concepts

Ingredient differentiation for modern consumers

## 2 Applications

Functional chocolate balls and filled centers

Saffron, cardamom, rose and coffee flavor concepts

Camel milk powder and nut-powder incorporation

Botanical inclusions for confectionery and sweet snacks

## 3 Technical Capabilities

Extraction and ingredient concentration

Freeze-dried powders and specialty ingredients

Formulation support for indulgent formats

Packaging and gifting concept development

## 4 Opportunity Areas

FROM EXTRAORDINARY INGREDIENTS  
TO UNFORGETTABLE CONFECTIONERY EXPERIENCES

Premium gifting chocolates

Wellness-positioned confectionery

Espresso companion chocolate concepts

Luxury Middle Eastern flavor collections

Co-branded or private label concepts

Professional Nature helps confectionery brands combine  
indulgence, innovation and natural value.

NATURE | INNOVATION | INDUSTRY | PEOPLE | A SWEETER TOMORROW

# FUNCTIONAL BEVERAGES, DAIRY & TWIST-CAP INNOVATION

From active ingredients to differentiated ready-to-drink concepts

NATURAL INGREDIENTS  
INNOVATIVE FORMULATIONS  
DIFFERENTIATED BEVERAGES  
A HEALTHIER TOMORROW

## 1 How We Support Beverage Brands

Functional beverage concept development

Natural extracts, flavors and active ingredient systems

Premium positioning with saffron, rose, coffee and botanicals

Innovation for ready-to-drink and on-the-go formats

## 2 Platform Capabilities

Twist-cap delivery concepts for fresh actives

Camel milk powder and dairy innovation

Water-soluble ingredient and concentrate development

Freeze-dried powders and beverage components

## 3 Applications

Functional waters and wellness drinks

Dairy, milk-based and powder beverage systems

Coffee and energy-style concepts

Botanical refreshment and hydration ideas

## 4 From Concept to Market-Ready Beverages

INTEGRATED CAPABILITIES  
FOR STRONGER, MORE DIFFERENTIATED BRANDS

Natural Ingredients & Extracts

Formulation & Processing

Powders & Concentrates

Twist-Cap Beverage Concepts

Packaging & Product Development

B2B Commercialization

## 5 Commercial Value

Product differentiation

Premium storytelling

Flexible B2B collaboration

White label development

Packaging concept support

Professional Nature turns natural ingredients into compelling beverage and dairy innovations.

NATURE | INNOVATION | INDUSTRY | PEOPLE | A HEALTHIER TOMORROW

# COFFEE, CAFÉ & FOODSERVICE SOLUTIONS

Functional coffee concepts, aromatic differentiation and value-added innovation

NATURAL INGREDIENTS  
UNIQUE FLAVORS  
PREMIUM EXPERIENCES  
A STRONGER TOMORROW

## 1 What We Offer

-  Coffee-related formulation and concept development
-  Aroma-focused extraction and ingredient pairing
-  Premium flavor combinations for café innovation
-  Functional positioning opportunities

## 2 Key Concepts

Coffee with saffron, cardamom or botanicals

Decaf and aroma-enhanced concept support

Coffee companions such as functional chocolate formats

Ready-to-mix and foodservice ingredient ideas

## 3 Technical Strength

Extraction and concentration know-how

Freeze-dried ingredients and powdered systems

Sensory and premium positioning support

Packaging and menu concept development

## 4 Where It Fits

Specialty  
cafés

Coffee  
roasters

Hospitality and  
hotel channels

Retail  
coffee brands

Functional beverage  
companies

## 5 From Bean to Beverage

-  Ingredient sourcing and selection
-  R&D and co-development
-  Pilot production and scale-up support
-  Customized formulations and packaging
-  Collaboration with café and foodservice partners

Professional Nature helps coffee brands create premium, memorable and functional product experiences.

# NATURAL EXTRACTS, ACTIVES & FUNCTIONAL INGREDIENTS

Advanced ingredient development for wellness,  
nutrition and value-added formulations

NATURAL RESOURCES  
SCIENCE-DRIVEN INGREDIENTS  
HEALTHIER PEOPLE  
BRIGHTER TOMORROW

## 1 Ingredient Focus

Botanical extracts  
and active fractions

Functional ingredient  
innovation

Natural differentiation  
for health-oriented brands

Premium Omani and  
regional botanicals

## 2 Key Materials

Saffron extracts and  
aromatic fractions

Frankincense extracts  
and specialty actives

Garlic, ginger, turmeric  
and botanical concentrates

Rose, cardamom, vanilla  
and coffee derivatives

## 3 Processing Capabilities

Supercritical CO<sub>2</sub>  
extraction

Subcritical extraction

Drying, concentration  
and purification

Functional formulation  
support

## 4 From Natural Resources to High-Value Ingredients

INTEGRATED CAPABILITIES  
FOR WELLNESS, NUTRITION AND A HEALTHIER TOMORROW

Botanical  
Sourcing

Extraction /  
Processing

Concentration /  
Purification

Standardized  
Extracts & Actives

Ingredient Formats  
(Powders, Liquids, Capsules)

Value-Added  
Solutions

## 5 Collaboration Opportunities

Ingredient supply

Co-development projects

Product concept creation

White label support

Scale-up pathways

Professional Nature develops high-value natural ingredients  
for brands seeking science, story and differentiation.

# NUT, SEED, OIL & TAHINI SOLUTIONS

INSPIRED BY  
OMAN'S UNIQUE NATURE  
BUILT FOR A HEALTHIER  
WORLD

Value-added processing concepts for edible oils,  
proteins, powders and spreads

NATURAL RESOURCES  
REAL OPPORTUNITIES  
A HEALTHIER TOMORROW

## 1 What We Can Support

Value-added processing  
for nuts and seeds

Ingredient innovation  
using oils, proteins and powders

Premium positioning for  
traditional and modern products

B2B formulation and  
application support

## 2 Relevant Areas

Sesame and tahini  
product concepts

Peanut, almond and  
pistachio powder  
applications

Edible oil positioning  
and specialty concepts

Composite ingredient  
systems for functional  
foods

## 3 Technical Strength

Extraction and partial  
de-oiling concepts

Powder development  
and drying solutions

Product optimization  
and application R&D

Packaging and  
commercialization support

## 4 Business Opportunities

Tahini  
innovation

Protein- and powder-  
based ingredients

Functional snack  
and dessert applications

Retail and foodservice  
concepts

Investor-ready  
product platforms

Raw Material  
Sourcing

Cleaning &  
Pre-processing

Extraction &  
Refining

Powdering &  
Drying

Formulation &  
Blending

Finished  
Products

Professional Nature helps transform  
nuts and seeds into profitable,  
differentiated product systems.

NATURE | INNOVATION | INDUSTRY | PEOPLE | A HEALTHIER TOMORROW

# PET FOOD, NOVEL PROTEIN & FREEZE-DRIED NUTRITION

Advanced ingredient and product concepts for modern pet nutrition brands

NATURAL RESOURCES  
REAL OPPORTUNITIES  
A HEALTHIER TOMORROW

INSPIRED BY  
OMAN'S UNIQUE NATURE  
BUILT FOR A HEALTHIER  
WORLD

## 1 Value for Pet Nutrition Brands

Novel protein differentiation

Premium functional nutrition concepts

High-value ingredient storytelling

Support for better-for-pet product innovation

## 2 Concept Areas

Freeze-dried camel meat concepts

Sensitive-diet and novel-protein positioning

Ingredient powders and pet snack ideas

Functional and premium product ranges

## 3 Processing Support

Freeze-drying and drying know-how

Ingredient handling and quality focus

Product concept and packaging development

B2B collaboration and scale-up pathways

## 4 From Raw Ingredients to Premium Pet Products

INTEGRATED CAPABILITIES  
FOR A STRONGER, MORE NATURAL TOMORROW

Sustainable Sourcing

Raw Material Preparation

Freeze-Drying / Processing

Ingredient Powders & Treat Formats

Formulation & Packaging

Premium Pet Products

## 5 Commercial Potential

Premium pet treats

Specialized nutrition formats

Export-oriented product concepts

White label opportunities

Brand differentiation through unique regional sourcing

Professional Nature supports pet brands with innovative, premium and differentiated nutrition concepts.

NATURE | INNOVATION | INDUSTRY | PEOPLE | A HEALTHIER TOMORROW

# AROMATICS, PERSONAL CARE & NATURAL BEAUTY INGREDIENTS

INSPIRED BY  
OMAN'S UNIQUE NATURE  
BUILT FOR A HEALTHIER  
WORLD

Botanical extracts, essential oil concepts  
and premium natural storytelling

NATURAL RESOURCES  
REAL OPPORTUNITIES  
A BEAUTIFUL TOMORROW

## 1 How We Support Beauty Brands

Premium botanical ingredient  
positioning

Natural extract and aromatic  
concept development

Regional authenticity and  
luxury product stories

Differentiation through  
ingredient innovation

## 2 Relevant Materials

Frankincense and  
aromatic resins

Rose, saffron,  
cardamom and  
vanilla concepts

Essential oil and  
specialty extract  
opportunities

Natural concentrates  
for premium  
formulations

## 3 Platform Capabilities

Supercritical and specialty  
extraction knowledge

Concentration and  
refinement support

Product concept and  
sensory direction

Packaging and luxury  
positioning ideas

## 4 Potential Applications

Premium body  
and skincare  
concepts

Aromatic personal  
care systems

Wellness and  
ritual-based  
collections

Giftable  
luxury formats

Co-development  
with established  
brands

Professional Nature helps beauty and aromatic brands  
create compelling products rooted in nature and innovation.
